

FACTORY FLOOR WIRELESS SOLUTIONS

AGV's, Automated Pallet Systems, Robotics, Smart Manufacturing, IIoT integration and the connected workforce are fundamentally transforming today's Factory Floor. Improving productivity and efficiency depends on secure access to real time information. But, in order for any of this data to be useful and actionable information, it must be captured and processed. Reliably, securely and consistently.

- AGV
- Handheld HMI/ThinClients
- Automated Pallet Systems
- Robotics
- Overhead Cranes
- Plant Energy Management

Why Choose ESTeem?

✓ Expertise

ESTeem Industrial Wireless Solutions are successfully deployed in the Factory Floor industry for now more than 40 years.

✓ Modernize

ESTeem provides ruggedized 900MHz and WiFi Access Points (AP) and clients with the required speed, range and roaming capabilities to deliver the reliable, isolated and secure wireless networks required today to provide complete connectivity.

✓ Reliable

ESTeem's ruggedized, industrial wireless modems are built to be an essential component of the Factory Floor communications infrastructure.
