

ESTeem
SECURE WIRELESS NETWORKING

WATER/WASTEWATER WIRELESS SOLUTIONS

Clean, safe water is the lifeblood of our planet. Demand has never been greater. Improving productivity and efficiency depends on access to secure, real time information. But, like water itself...in order for any of this data to be useful and actionable information, it must be captured and processed. Reliably and consistently.

Water/Wastewater systems face exceptional hurdles in accessing the vital data available due to an aging infrastructure, longer distances and challenging terrain.

- **SCADA Systems**
- **Freshwater Distribution**
- **Remote Pump Control**
- **Wastewater Lift Stations**
- **Remote Security Cameras**

Why Choose ESTeem?

Expertise

ESTeem Industrial Wireless Solutions are successfully deployed in the Water/Wastewater industry for now more than 40 years.

Modernize

ESTeem's ruggedized, industrial wireless modems are built to be an essential component of the Water/Wastewater communications infrastructure. ESTeem provides unsurpassed speed and range to deliver the reliable, isolated and secure wireless networks required today to provide complete connectivity to critical IT, operations control systems and remote asset data

Reliable

Scalable, redundant wireless networking over large geographical areas become a reality using ESTeem's IndustrialMESH technology.

FCC
Licensed

150-174MHz 217-220MHz 450-470MHz

Unlicensed

900MHz 2.4GHz 5.8GHz  Cellular
