

Omni-Directional UHF Antenna

- Applications:** Fixed base or mobile mounting. L shaped mounting bracket may be removed for panel mounting. Ground plane radials may be removed depending on application.
- Antenna Type:** Omni-Directional, Open Coil Collinear 5/8 Wave over 1/4 Wave
- Frequency:** 450 to 470 MHz
- Polarization:** Vertical
- Impedance:** 50 ohms
- Gain:** 3.2 dBd with ground plane radials
- VSWR:** 1.5:1
- Front to Back Ratio:** n/a
- Horizontal Beamwidth:** n/a
- Vertical Beamwidth:** 30 degrees
- Recommended Mounting Hardware:** Stainless steel clamps for mounting to ¾ in. to 1 ½ in. pipe with right angle mount or direct panel mount.
- Antenna Connector:** N-Type Female
- Antenna Envelope:** 32.25 in. length by 16 in. width with ground plane radials
- Weight:** 2 lbs.
