

Omni-Directional VHF Antenna

Applications: Fixed base

Antenna Type: Omni-Directional, DC Grounded

Frequency: 215 to 225 MHz

Polarization: Vertical

Impedance: 50 ohms

Gain: Unity

VSWR: <1.5:1

Front To Back Ratio: n/a

Horizontal Beamwidth: n/a

Vertical Beamwidth: 75 degrees

Antenna Material: White UV inhibited fiberglass radome with epoxy coated heavy aluminum base.

Recommended Mounting Hardware: BSMNT2 Mounting kit

Antenna Connector: N Jack (Female)

Antenna Envelope: 64 in. length by 1.35 in. width

Power: 250 watts

Weight: 6lbs.

Max Wind Velocity: 125 mph minimum

Lateral Thrust: 19.8 lbs.
