

## **Specification Sheet Model AA20M**

## **Omni-Directional VHF Antenna**

**Applications:** Fixed base or mobile mounting. L shaped mounting bracket may be removed for panel mounting. Ground plane radials may be removed depending on application.

Omni-Directional, DC Grounded, 5/8 Wave **Antenna Type:** 

Frequency: 144 to 174 MHz

**Polarization:** Vertical

Impedance: 50 ohms

3.0 dB with ground plane radials Gain:

**VSWR:** < 1.5

Horizontal Beamwidth: n/a

Vertical Beamwidth: 60 degrees

**Antenna Material:** Stainless steel whip and ground plane radials. All other hardware anodized metal.

**Recommended Mounting Hardware:** Stainless steel clamps for mounting to .75 in. to 1.5 in. pipe with right

angle mount or direct panel mount.

**Antenna Connector:** UHF Female (SO-239)

**Antenna Envelope:** 51.75 in. length by 43.5 in. width with ground plane radials

Power: 200 watts

Weight: 2 lbs.

**Note:** Center element needs to be cut to operating frequency before operation.
