

Horizon Series Packet Monitor

1. Access the ESTeem Web page using your computer's Web Browser. Select **Advanced** Tab. From the **Wireless LAN Setting** section, select **WLAN0 Device** (Figure 1) and push the **Next** button.

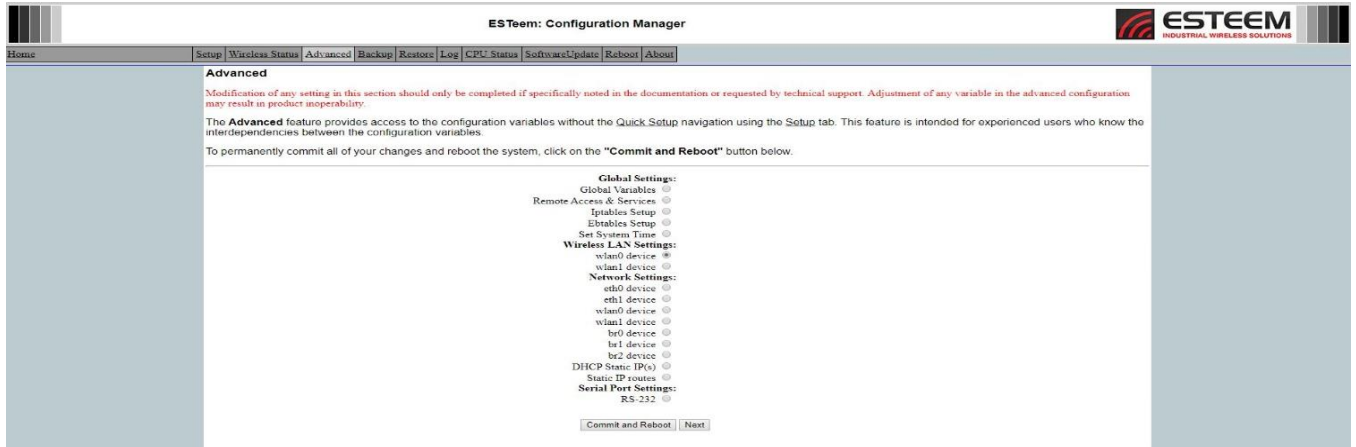

Figure 1: Advanced Screen

2. Select **Packet Monitor** (Figure 2) and push the **Setup** button

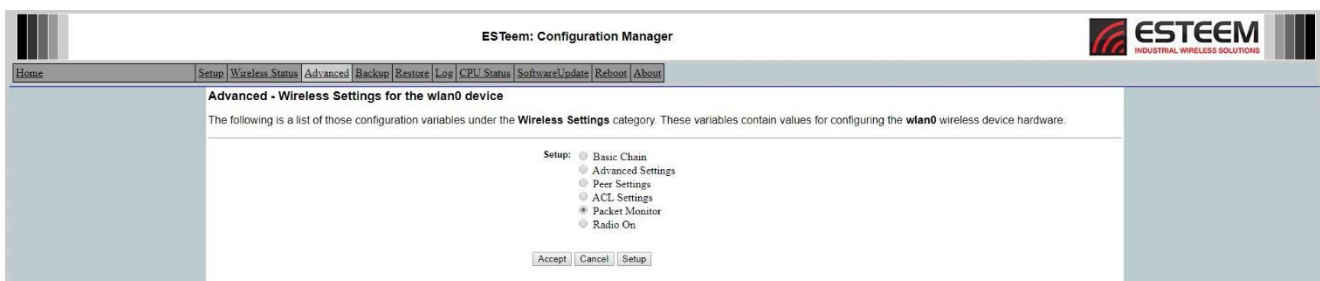

Figure 2: Packet Monitor

- Download the Wireshark Plugin by clicking on the [Click Here](#) (Figure 3).

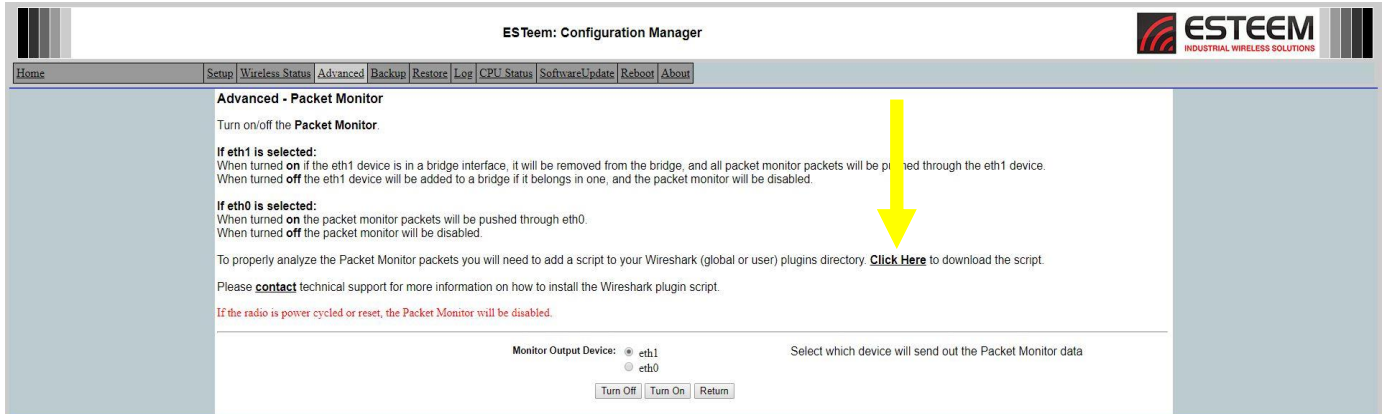

Figure 3: Wireshark Plugin

- Select the **Monitor Output Device** (Figure 4). Typically, eth1 is used allowing the ESTeem Horizon to remain connected to an active device

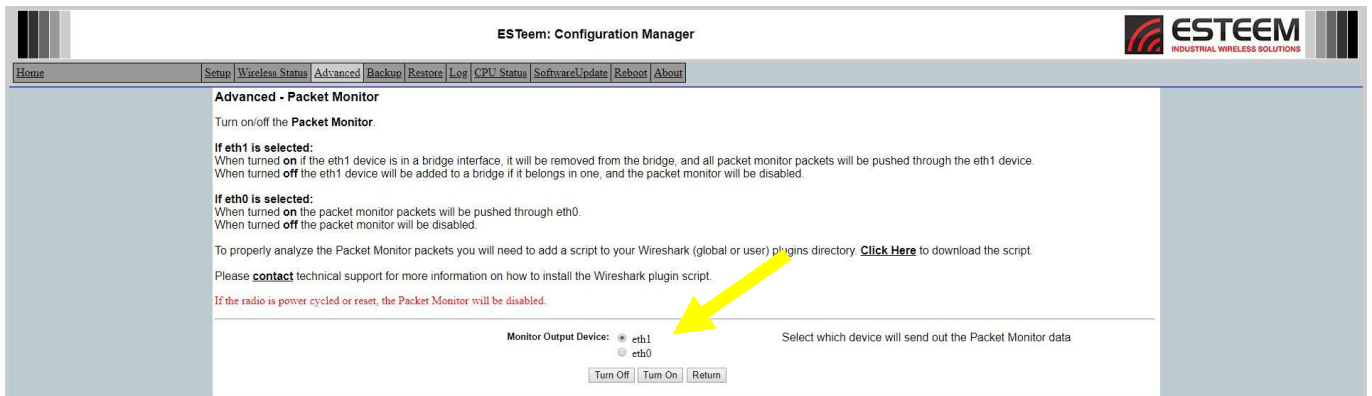

Figure 4: Monitor Output Device

- Press the **Turn On** button

6. Install the latest version of Wireshark from www.wireshark.org.
7. Copy the downloaded **est_eth2rtap.lua** script into C:\Users\username\AppData\Roaming\Wireshark\plugins directory (Figure 5)
